PRESS RELEASE

ESP Featuring Series

Quiet Days Louder Nights

The **ESP Featuring** series; remixes and previously unheard performances on ESP Project songs, is live on exclusively on Bandcamp. **No 1 – ‘Quiet Days Louder Nights’** features the unmistakable sound of David Jackson in this new instrumental version of ‘**Quiet Days**’ from ‘**Invisible Din**’ with previously unheard parts by David Jackson on Saxes and Flutes and Tony Lowe on Guitar, Keys and programming.

“When David sent me parts for the album, he always included several different takes, and for that version I used the parts that supported the song as it was then. Some of the parts were so strong that they really deserve to be heard and LOUD. So here is ‘Quiet Days Louder nights’ Featuring David Jackson.” – Tony Lowe

Tony Lowe, composer, multi-instrumentalist, and producer is known for his production work on a number of well-known prog projects such as the ESP Project, and Crossover (Cross & Banks), Starless Starlight (Cross and Fripp) as well as many other rock and alternative rock albums. He composes, produces and plays guitar and keyboards on the ESP Project albums. He previously played guitar with Roger Daltrey, Simon Townshend, Julian Lennon, Modern English and Pet Shop Boys among many others.

“A new ESP album is something I always look forward to. Tony Lowe has in both his solo and ESP work constantly delivered an excellent eclectic mix of original rock and melodic prog music. His signature sound manages to recall the glory of classic prog, while avoiding sounding derivative, unlike many other prog bands these days. Clearly a first-class musical producer, the high production values shine throughout as a key factor on all his releases.” – Brian Talgo – Gentle Knife
