## ESP Project releases 'reverie' - 19th May 2023

**reverie - A Prog Symphony in Seven Movements**, is the 8th ESP Project album since 2016. Written and performed by multi-instrumentalist, composer, and producer Tony Lowe and just under 60 minutes; the music captures mysterious atmospheres where orchestral waves sweep across changing moods and tempos accompanied by Tony's scintillating and melodic guitar lines, taking the listener into sublime landscapes and scenarios. From stirring symphonic themes, to prog rock and fusion, **reverie** invokes an overall feeling of hope for the future. **CAT: SUNNC2301 - BARCODE: 5060732662100**

*"Getting my first listen to "reverie", the forthcoming album from ESP due for release from Sunn Creative on 19th May. Beautifully nuanced and alive with exquisite textures, Tony Lowe creates a striking and absorbing set of symphonic landscapes across seven tracks or movements. It's a riveting journey which never fails to engross and absorb with abundant richness and engaging atmospheres. The stunning artwork yet is also courtesy of Tony and completes a package which brings a definite sense of peace and hope. Magnificent." - Rob Fisher - The Progressive Aspect*

The **ESP Project** has a history of top reviewed releases, contributing lyricists, vocalists & musicians; the last seven releases receiving a combination of over 60 4-4.5 star reviews from the Music Press and numerous top 10 album of the year awards. All albums are produced by Tony Lowe and released on the Sunn Creative label.
